About Me

Computer Science graduate with expertise in web development using HTML, CSS, JavaScript, React, and Angular. Strong understanding of software engineering principles, data structures, and algorithms. Proven ability to collaborate effectively and solve complex problems. Eager to apply technical skills to create intuitive user experiences as a web developer. Passionate about continuous learning and contributing to innovative projects.

Professional Experience

Sheeraj Projects Pvt Ltd | Delhi
Commissioned Web Designer | 12/2023 – 02/2024

As a commissioned web designer for Sheeraj Projects, I was entrusted with the task of creating a dynamic and visually appealing website to showcase the company's products and services. Leveraging my expertise in web design and UI/UX principles, I collaborated closely with the company's stakeholders to bring their vision to life.

Computer Science Department | Gurugram
Head Student Coordinator | 02/2022 – 04/2024

As the Head Student Coordinator of the Computer Science Department, I had the privilege of leading a dynamic team of student volunteers, facilitating various activities and initiatives within the department. My role involved overseeing the coordination of events, fostering student engagement, and serving as a liaison between students, faculty, and administration.

Self Employed Tutor | Delhi
MS Office | 06/2020 – 08/2021

As a Microsoft Office tutor in my locality, I provided personalized instruction and support to individuals seeking to enhance their proficiency in using Microsoft Office suite applications. My role involved delivering comprehensive training sessions tailored to the specific needs and skill levels of my students, empowering them to leverage these essential tools effectively in both personal and professional settings.

Projects

- Automatic Gas Leakage Detector
- ATM Machine Interface
- Event Website
